

**Part 6**

**Traction Power Supply Requirements for Railroad AC  
 Electrification Systems**

— 2021 —

**TABLE OF CONTENTS**

Section/Article	Description	Page
6.1	<b>General</b> .....	<b>33-6-3</b>
6.1.1	Purpose (2021).....	33-6-3
6.1.2	Scope (2021).....	33-6-3
6.2	<b>Electrification System Load</b> .....	<b>33-6-3</b>
6.2.1	General (2021).....	33-6-3
6.2.2	Traction Power Demand (2021).....	33-6-3
6.3	<b>AC Electrification System Configuration</b> .....	<b>33-6-5</b>
6.3.1	General (2021).....	33-6-5
6.3.2	Traction Power Supply System (2021).....	33-6-6
6.3.3	Traction Power Distribution System (2021).....	33-6-8
6.3.4	Traction Power Return System (2021).....	33-6-15
6.3.5	Normal and Contingency Operation (2021).....	33-6-16
6.4	<b>Electrification System Selection</b> .....	<b>33-6-17</b>
6.4.1	System Configuration (2021).....	33-6-17
6.4.2	Substation Spacing (2021).....	33-6-17
6.4.3	Electrification Voltage (2021).....	33-6-18
6.4.4	Utility Power Availability (2021).....	33-6-18
6.4.5	Electromagnetic Interference (2021).....	33-6-18
6.4.6	Rail Potential (2021).....	33-6-19
6.4.7	Achieving Cost Effective Electrification System Design (2021).....	33-6-19
6.5	<b>System Studies</b> .....	<b>33-6-20</b>
6.5.1	General (2021).....	33-6-20
6.5.2	Train Operation Simulation and Load-Flow Study (2021).....	33-6-20
6.5.3	Distribution System Conductor Temperature Study (2021).....	33-6-20
6.5.4	EMI Study (2021).....	33-6-20
6.5.5	Voltage Flicker Study (2021).....	33-6-21
